Federal Record Status Not Determined

Carol Hanlon,

As a citizen of the state of Minnesota I oppose Yucca Mountain for two reasons. The first being the lack of concern for the welfare of the communities surrounding the nuclear waste dump. The planning departments seem intent on ignoring the horrific effects that a radioactive sight would have on the area. There are definite issues of environmental racism against the reservations of the area and this needs to stop.

Secondly, the need to address transportation concerns me. I am well aware that the main highway through the Twin Cities is a transportation route. I simply cannot imagine transporting nuclear waste through a major metropolitan area where thousands of people are being put into danger. Yucca Mountain cannot happen. The existing waste should be dealt with at the production sight where the people who benefit from the energy produced have to deal with the waste as well.

Please see that my opinion counts as it is the feeling of a large population in the Midwest.
